## **Delkor Systems Inc. At Gulfood Manufacturing**

**FOR IMMEDIATE RELEASE:** Delkor to introduce the world's most advanced Corrugated Case Former/Erector at Gulfood Manufacturing in the Dubai World Trade Center, November 7-9<sup>th</sup> in Hall 4, stand E4-15.

With so much focus on sustainable packaging solutions there is no other Corrugated Case Former/Erector on the market that can deliver such dramatic results. Here are the features of Delkor's Trayfecta X which has made it the most advanced Case Former/Erector on the market:

- **99.8% Machine Uptime** achieved by new technology to correct warped corrugated blanks (patents pending)
- **3-minute changeover** with perfect vertical startup for all corrugated shipper styles, including Club Store stackable trays (patented)
- **Maximized Savings & Sustainability** with shippers formed from a single piece blank (10-30%)
- **50 cases per minute**
- **500 blank magazine capacity**
- **Sanitary Design** available for demanding environments

Delkor is a leading U.S. manufacturer of advanced robotic packaging systems. Delkor operates from a 30,000 square meters plant in St Paul, MN. Delkor's team of nearly 400 employees is considered the leader in North America for Shelf Ready Case Packaging and was awarded the 2023 Rockwell Automation OEM Partner of the year for North America.
